MEMORANDUM FOR THE RECORD

SUBJECT: Treasury Views Letter on H.R. 39 - Contact with
Office of Management and Budget (OMB)

1. On 29 April 1985, Hilda Schrieber, Legislative Analyst, OMB, returned by call concerning the Agency's views on the proposed Treasury views letter on H.R. 39. I summarized the comments of the various Agency components as follows:

The Agency had no objection to the transmittal of the letter. The Agency would prefer, however, that the third and fourth paragraphs on page one of the letter be deleted. Those paragraphs raised again the matter of NSDD-84 and, in view of the strong negative congressional reaction to that NSDD, the Agency believed the letter would be better received if no mention were made of it.

The Agency also wanted to eliminate the statement that the bill would cause the Central Intelligence Agency and the National Security Agency to withhold information from the Secret Service as that statement was not, in fact, correct.

2. Ms. Schrieber thanked me for the comments.
